

Husky Preventive Maintenance Kit – Hose Kit

Everything you need to get the job done

Protect your people

Prevent failure & secure production

Get the right parts

OEM parts tested & certified

Save time, everything you need in 1 kit

Husky Machine Hose kits* includes:

- All the hydraulic hoses with their fittings and seals
- The safety hose restrains
- The main machine filter(s)
- The installation documentation

Replacement of hydraulic hoses every 3 years is critical for safety and for machine performance.

After 3 years, material usually starts to degrade **externally and internally**. A damaged hose represents a **risk of machine fire** but also **human injury**. **Consequential damage** on other components from the hydraulic circuit, such as servo valve, may happen due to **degraded material contamination**.

Custom packages.

Husky customizes each package to meet the needs of every specific machines.

The Husky experience.

Benefit from the Experience of Husky technician for the installation of the hose kit and get **6 months warranty on the hoses** **.
